

JANHAVI KHONDE

Full Stack Developer | AI Automation Engineer

janhavikhonde20@gmail.com · Pune, India

Portfolio: janhavikhonde.netlify.app · LinkedIn: linkedin.com/in/janhavi-khonde-b7410029b · GitHub: github.com/janhavikhonde

PROFESSIONAL SUMMARY

Full Stack Developer & AI Automation Engineer with hands-on experience building production-grade SaaS CRM systems, analytics dashboards, AI-powered business tools, and workflow automation platforms using MERN stack, APIs, and OpenAI integrations. Skilled in React.js, Node.js, MongoDB, n8n, Make.com, and scalable SaaS product development. Experienced in delivering client-facing applications from architecture to deployment.

PROFESSIONAL EXPERIENCE

Full Stack Developer | AI Automation Engineer

Aug 2025 – Present

The Wise Parrot

- Built and deployed thewiseparrot.com — company's primary lead generation and client acquisition platform
- Developed real-time lead analytics dashboard (client-report.thewiseparrot.com) handling 10,000+ lead records with dynamic filtering, API-driven search, and reporting
- Built Clarity Hub — WhatsApp Business analytics dashboard — monitoring message performance across 5+ active client campaigns
- Developed AI token monitoring system using OpenAI APIs to track real-time API consumption — reducing wasted spend by 30%
- Automated 15+ third-party API workflows using Make.com and n8n, reducing manual operational effort by 70%
- Created and validated REST API integrations using Postman — JSON data mapping, webhooks, endpoint debugging across 10+ integration points

Implementation Intern — Web Developer

May 2025 – Aug 2025

The Wise Parrot

- Built client-facing web applications using React.js, HTML5, CSS3, and JavaScript
- Created Make.com and n8n automation workflows to sync API data across platforms
- Tested and debugged REST API endpoints using Postman to ensure reliable data exchange between services

Software Developer

Jan 2025 – May 2025

Numetry Technologies

- Contributed to software development projects, building interactive UI components using JavaScript and React.js

IoT Developer

Sep 2023 – Nov 2023

Smart Logic Technologies

- Developed embedded systems and integrated hardware sensors for IoT solutions
- Designed IoT architecture and optimised communication protocols for device connectivity

Software Engineer Intern

Jan 2023 – Feb 2023

Academy of Skill Development

- Developed Python-based projects and performed data analysis tasks, strengthening core programming fundamentals

TECHNICAL SKILLS

Frontend:	React.js, HTML5, CSS3, Tailwind CSS, JavaScript
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, Webhooks
Database:	MongoDB, MongoDB Atlas, SQL
AI & Automation:	OpenAI API, Prompt Engineering, Make.com, n8n, Workflow Automation, AI Chatbot Systems
Integrations:	Postman, API Testing, JSON Data Mapping, Third-Party API Integration
Deployment:	Git, GitHub, Vercel, Netlify, Render, Replit, Lovable (AI-assisted prototyping)
Languages:	JavaScript, Python, C

OTHER PROJECTS

KodeKraft — Multi-Industry SaaS AI-Powered CRM Platform

Built independently — a SaaS CRM for Real Estate, Hotels, Clinics, Travel, and Coaching businesses using React.js, Node.js, and MongoDB. Includes AI assistant powered by OpenAI APIs, AI-powered analytics engine processing 10,000+ lead records, drag-and-drop lead pipeline, and auto lead capture from Facebook Ads, IndiaMART, 99acres, and MagicBricks.

Lead Data Analytics Dashboard

Production web app for real-time lead search and analysis with dynamic filtering, data visualisation, and API-driven pipelines built with React.js and Node.js — handling 10,000+ records.

Live: client-report.thewiseparrot.com

Clarity Hub — WhatsApp Analytics App

WhatsApp Business analytics platform for tracking campaign engagement, message performance, and customer interaction metrics using automation workflows and WhatsApp APIs.

AI Object Detection System

AI-powered real-time human detection and monitoring system using Python, OpenCV, and MobileNet SSD for live camera-based tracking workflows.

Rajiv Gandhi Academy — Corporate Website

Fully responsive institutional website with structured content pages, course information, and professional layout.

Label & Data Management App

Internal web application for managing and organising operational data records with clean UI for efficient data handling, deployed on Replit.

EDUCATION

Bachelor of Technology (B.Tech)

2021 – 2025

SVKM's Institute of Technology, Dhule

ACHIEVEMENTS & CERTIFICATIONS

- Delivered multiple production-grade applications — SaaS CRM systems, analytics dashboards, and automation platforms
- Built AI-integrated business tools using OpenAI APIs handling real-world client data
- Gained 533+ LinkedIn impressions with posts on AI automation — demonstrating industry thought leadership
- Participated in competitive hackathons including SunHack and Seismic Hackathon
- Cleared coding assessments conducted at IIT Bombay
